It was the general belief here that Richmond was a city of 100,000 to 110,-000 inhabitants, as it had in the neigh-borhood of 90,000 ten years ago.

The result of the work of the enum-erators will at least be disappointing to Richmond people, as they have felt that the city has been steadily growing in importance and population during the decide.

the decade.

Some persons are disposed to criticise the census enumerators because their labors will not place Richmond above 100.000 mark, but when it is remembered that these gentlemen were allowed pay on the basis of the number of residents listed, reasonable cause for criticism disappears, as it must be assumed that each enumerator got all the names he possibly could.

A great deal of interest is being manifested in the census, and it is hoped Superintendent McLaughlin will stretch the figures as far as possible and give Richmond 100,000 souls if possible. The census work here must be closed and a report ready for Washington by September 1st.

A WARRIOR IN CHINA.

A WARRIOR IN CHINA.

Mr. James E. Grady received a letter Friday from Mr. Stephen McMahon, the young Fulton warrior who is in Che Foo, China, on the United States ship Yorktown. He speaks of the bondardment made and of the bravery exhibited by the American soldlers, whom, he says, know no fear when maddened by the cannons' roar. It is a wonderful sight, he says, to see the foreign war ships, about 100, ready to give China her death-knell. He also speaks in glowing terms of the bravery of the Japanese, who are fighters pure and simple. It is no longer a novelty now, he says, to see dead Chinamen floating along the river, the result of the deadly-fire of the allies.

Mr. McMahon, though young in years, being not yet 30, enjoys the fact that during his service in the navy he has had practical experience of war and its horrors. He did service in the war with Spain, and though several times while in the height of buttle had remarkable excapes, he came out without a sear. Since that time he has done service in the Philippines, both on land and sea, and rather enjoys the fact. Now he is down in China on the Yorktown, in the same business, and no word of discomfort has yet been received from him.

NORFOLK REPRESENTATIVES AT THIS CHARMING SUMMER RE-SORT. (Special to Virginian-Pilot.) Yellow Sulphur Springs, Va., Aug. 4.—Any one who has spent a season

at Yellow Sulphur Springs must ad mit that it is a most charming summer resort. Situated almost at the very summit of the Alleghany Mountains of Virginia the air is necessarily pure and invigorating, and there is scenery that appeals at once to every lover of nature. On every hand the

"everlasting hills," "rock-ribbed and ancient as the sun," lift their emerald-crowned heads to the skies. Patriarchal trees reach out sheltering arms, affording a grateful shade, beneath which one may lie and dream away the summer hours, fanned by the balmy mountain breezes.

ANXIOUS FOR NEWS.

The crowd in Capitol Square Friday night, to hear the megaphone returns from the fight given by the Leader, was, perhaps, the largest that ever gathered there.

Despite the long delay in starting the fight, the crowd kept its temper, and good nature prevailed.

It is estimated that nearly 5,000 people were crowded on the face of the historic hill to hear the result, which was announced from the editorial rooms of the Leader.

A TEACHER'S RESIGNATION.

Professor T. E. Crenshaw, assistant principal of the Manchester public schools, has tendered his resignation to the School Board, to go into effect at once.

TERRIBLE TIDE - MYSTERIQUS BOAT-AN OLD STONE.

Hampton, Va., Aug. 25 .- During the fearful tempest that swept along the coast yesterday afternoon between 3 and 4 o'clock the Mill Creek bridge, spanning the narrow neck of water between Phoebus and the Government reservation at Old Point, was injured. The highest tide that has surged up this creek in a number of years broke loose a sailing sloop that was anchored just below the bridge and carried it under the bridge. Lodging against one of the underpinning, it exerted a great force against it, and the strong current that flows there, augmented by the high tide, succeeded in taking out one of the supports for the bridge over which the cars of the N. N. & O. P. railway pass. Several cars passed after the support was removed, but as the bridge gave in or swayed to the weight it was thought expedient not to risk, so passengers have been transferring at this point. The necessary repairs will be made early this morning.

A MYSTERIOUS BOAT.

After the storm of yesterday afternoon, fishermen at the mouth of Hampton creek saw a boat coming straight in for home. Having hailed her and no one replying, they made an investigation, and found that she was entirely empty. A fishing line and a coat were all that was left of her deserted or drowned master, Late yesterday afternoon the most intense excitement could be noticed among the men at the wharf. No one seemed to know the boat or the person who owned it. Late last night nothing could be ascertained as to the missing man, but it is generally believed he lost his life in the storm.

A large stone, where tradition says Chief Kecoughtan was wont to build his camp fires over which to toast delicious Hampton Bay oysters, and later over which the elder fathers as barefoot boys have played "in the good old days," was removed yesterday in order to make way for a stretch of granolithic pavement.

The old stone, burled beneath the paving of the sidewalk, was located at the corner of King and Hope streets. It was very large, unusually so for this part of the country, and would weigh a ton, more or less.

If the opposing factions of the Republican party in this district do not come together soon and get up a proper degree of harmony, the finish of the G. O. P., as far as the representative is concerned, is obvious.

It may be said, however, at this stage of the game, that the Republicans hereabouts are relying on what they term a lack of harmony in the Democratic ranks to defeat the nominee of that party—Hon. Harry I.
